VIJAY SAGAR KANULLA

Edara, India 521211 | +91 9494564547 | vijaysagarkanulla@gmail.com | linkedin.com/in/vijay-sagar-kanulla-087459320 | https://portfolio-sagar-kanulla.vercel.app/ | https://github.com/Sagarkanulla

Professional Summary

Detail-oriented and innovative AI & Data Science enthusiast with practical experience in developing machine learning, data analytics, and automation projects. Skilled in Python programming, data visualization, and model deployment. Passionate about transforming raw data into actionable insights and building intelligent systems that enhance decision-making. A fast learner with strong problemsolving abilities, communication skills, and a drive for continuous improvement.

Education

- Bachelor of Technology in Artificial Intelligence and Data Science, 4th Year, 8th Semester – Lakireddy Bali Reddy College of Engineering, Expected April 2026 | CGPA: 7.35
- Intermediate (MPC) – Sri Sarada Junior College, Nuzvid | 2022 | Percentage: 66.6%
- SSC – Leah Jones High School | 2020 | Percentage: 99.33%

Internships & Experience

- AI/IoT Intern – Smart Home and Industrial Solutions (May 2025 – June 2025, Vijayawada): Developed an AI-powered robotic vehicle using Raspberry Pi and ultrasonic sensors for smart navigation, voice command automation, and real-time surveillance.
- Machine Learning Intern – Bist Technologies (June 2024 – July 2024, Vijayawada): Created a machine learning model to detect face orientation (left, center, right) and contributed to data preprocessing, model training, and evaluation workflows.

Technical Skills

- Programming Languages: Python, SQL, HTML, CSS, JavaScript
- Libraries & Frameworks: Scikit-learn, TensorFlow, Pandas, NumPy, OpenCV, Flask
- Data Visualization: Power BI, Tableau, Matplotlib, Seaborn
- Tools & Platforms: Google Colab, GitHub, VS Code,Antigravity
- Core Concepts: Machine Learning, Data Preprocessing, Model Deployment, Web Development

Soft Skills

Team Collaboration & Leadership, Analytical Thinking & Problem Solving, Time Management & Adaptability, Effective Communication, Innovation & Critical Thinking

Certifications

- ORACLE: Generative AI Professional, Data Science Professional
- NPTEL: Data Analytics with Python, The Joy of Computing using Python
- ACCENTURE: Data Analytics and Visualization Job Simulation

- TATA: Data Visualization – Empowering Business with Effective Insights
- HP LIFE: Data Science & Analytics (Certificate of Completion)
- Deloitte Australia – Forage: Data Analytics and Forensic Technology Virtual Experience using Tableau and Excel

Projects

- **AI & IoT-Based Smart Robotic Vehicle**: Integrated Raspberry Pi and sensors to enable obstacle avoidance, voice-activated commands, and real-time remote monitoring.
- **Fertilizer and Crop Prediction System**: Designed machine learning models using RandomForestClassifier to predict optimal fertilizer usage and crop type based on soil and weather data.
- **College Quality Prediction Model**: Built an ML model to assess college quality using placement data, higher studies ratio, and academic performance metrics.
- **Café Chat Web Application**: Developed a responsive website using HTML, CSS, MySQL, and Eclipse for an interactive café ordering system.
- **Eye Blink Detection System — Real-Time Computer Vision Application:** Built a system using OpenCV and MediaPipe to analyze blink rate (BPM) via Eye Aspect Ratio (EAR), with a Flask-based dashboard for live visualization and eye health classification
- **SeminarSync — Real-Time Virtual Classroom Platform:** Developed a secure room-based system using Next.js and SQLite with live chat, file sharing, and role-based controls powered by REST APIs and SHA-256 authentication https://seminardought.vercel.app/
- **TaskFlow** — Full-stack team collaboration and task management platform with JWT authentication, role-based access control, PostgreSQL, Prisma, and Railway cloud deployment link: taskflow-production-a420.up.railway.app

Workshops

- Workshop & Hackathon on Data Science using Python – Lakireddy Bali Reddy College of Engineering in collaboration with BRAIN O Vision (2022).
- Workshop & Hackathon on Python using Flask – Lakireddy Bali Reddy College of Engineering (2025).

Achievements

- Awarded 3rd Prize in Paper Presentation on Global Recycling Day organized by PRAKRUTHI (March 2025).
- Actively participated in Ideathon, Hackathon, and technical club events at LBRCE.
- Volunteered in college-level data analytics workshops and peer mentoring sessions.
